ALTEGRIS ENHANCES EQUITY LONG SHORT PORTFOLIO WITH CONVECTOR CAPITAL MANAGEMENT LP's GLOBAL STRATEGIES

LA JOLLA, CA – March 14th, 2016 – [Altegris](#), a provider of premier alternative investments, has allocated assets in its [Altegris Equity Long Short Fund](#) (Class A: ELSAX, Class C: ELSCX, Class I: ELSIX, Class N: ELSNX) to the global strategies of [Convector Capital Management LP](#). This change was effective December 8th, 2015.

As a provider of alternative investments, Altegris follows a disciplined process for identifying, evaluating and selecting investment talent across a spectrum of alternative strategies. The Altegris Equity Long Short Fund utilizes equity long/short strategies to seek long-term capital appreciation with moderate correlation to major equity market indices, to try to keep volatility low versus respective indices. Diversification is a cornerstone of Altegris' investment thesis and the firm relies on its five experienced sub-advisers to construct its proprietary model.

“We are pleased to expand our relationship with Convector, a firm we strongly believe will bring added value to our portfolio,” said Jack Rivkin, CEO and Chief Investment Strategist of Altegris. “Their different approach to long/short equity should enable us to participate in market upside while providing the potential to mitigate downside risks.”

New York-based Convector Capital Management was launched late 2011 and currently manages \$144 million in assets under management as of November 30th, 2015. The company utilizes a bottom-up, value-driven equity long/short strategy that stretches globally and across all primary sectors.

“The intensive research process and knowledgeable team at Altegris have supported our successful track record, and we're proud to bring our investment strategy to their advisor and retail network.” said Emmanuel Ferreira of Convector Capital Management.

Past performance is no guarantee of future results. It is important to note that mutual fund investing involves risk, including the possible loss of principal. The risks specific to the Altegris Equity Long Short Fund include, but are not limited to, market risk, credit risk, derivatives risk, foreign investment risk, issuer-specific risk, leverage risk, commodities risk, management risk, non-diversification risk, preferred stock risk, small and medium capitalization company risk, and turnover risk. Positions in shorted securities are speculative and more risky than long positions. Diversification does not ensure profit or protect against loss in a declining market. There is no guarantee that any investment product or strategy will achieve its objectives, generate profits or avoid losses.

Investors should carefully consider the investment objectives, risks, charges and expenses of the Altegris Equity Long Short Fund. This and other important information is contained in

the Fund's Prospectus and the Summary Prospectus, which can be obtained by calling (888) 524-9441. Read the prospectus carefully before investing.

The Altegris Equity Long Short Fund is distributed by Northern Lights Distributors, LLC. Altegris Advisors and Northern Lights Distributors, LLC are not affiliated.

Altegris Mission
